#### From Rishi Devra...

*We are living in the time of the New Beginning. A higher frequency of divine blueprint is enveloping our planet and the intensity of this transformative process is very impactful, especially for spiritual sensitives. Bringing in an all-new level of our divine potential effects the very nature of our existence, because a higher dimension of the divine blueprint is penetrating the very fiber of our being. Intellectually, we all know that this time of unprecedented change has been prophesied for thousands of years and that this deeply radical "reprogramming" is a natural part of the cosmic synthesis that advances our evolutionary spiral toward divine destiny. Yet, to live in the throes of such intensity is also challenging, as what you thought you knew or depended upon can be evaporated in an instant of benevolent upheaval.*

*My advised daily mantra is to let go and let God and welcome the influx of stellar empowerment. The month of June will be a highly impactful time for cellular imprinting and a gut-level degree of internal realization and purification. Potent stellar energies throughout the month of June will provide the catalyst for impactful change and transformation. "Shaking it all up" is the purpose of this radical time of change to reset your life direction to truly serve your greatest purpose during the decades to come. Be heightened in your awareness. Stay present to yourself and your highest intentions for this lifetime. It is time to sustain your focus on your life purpose. Take great care to lift above the mundane and withdraw from the "same ole, same ole" dissipation of your life energy. Use your power of meditative focus as a tool for transformation and loving awareness.*

*I also wanted you to be aware that my Solstice Retreat will serve as a gateway for this time of stellar influx for the uplifting of your consciousness, your DNA and your life purpose. This celestial gateway will empower the revelation and divine consecration of your master self - Your Solar Angel of the Presence. The Unity of the Great Alpha and Omega will be a powerful personal and group experience during this 4-day alignment with the omniscient empowerment of comic ascension. I personally extend my most heartfelt and auspicious blessing to each of you to open the way to attend. As you immerse in the auspicious nature of this retreat, you will feel your soul's call to "take initiation." I assure you beyond all doubt, that the Celestial Initiations of Christ Consciousness activate the most accelerated path of awakening and enlightenment*
